We are pleased to present our new project now available for sale located in one of the most consolidated and desirable residential areas of the Costa Blanca North. This project has been conceived under a clear architectural vision: an Ibiza-inspired Mediterranean style, warm, timeless and deeply connected to its natural surroundings. The design focuses on comfort, natural light and the relationship between indoor and outdoor living. Open spaces, soft tones, noble materials and landscaped environments have been carefully combined to create homes that invite you to relax and feel integrated with nature from the very first moment. Key features: • Sea views • Ibiza-Mediterranean architectural style • Warm, natural material palette • Open-plan layouts
